FLORIDA
RESTAURANT
& LODGING
ASSOCIATION

BED BUGS

What You Really Need to Know...

Bed bug infestations are on the rise and increasingly showing up in hotels, apartments, dormitories, shelters, homes, public transportation—and virtually any concentrated public area. Bed bugs are an elusive, transient pest. They hitch rides in luggage, boxes, shoes, and other mobile objects.

Because of the immediacy and the increased media attention and lawsuits, the National Pest Management Association along with the Florida Pest Management Association, and the Florida Restaurant and Lodging Association, have put together an educational program designed to help you deal with the difficult issue

of this serious public health pest—bed bugs.

From identifying bed bugs to inspection techniques to public affairs issues and the legal ramifications, we have gathered nationally-recognized experts on the bed bug issue to provide management tips, both preventative and corrective, to help you make informed decisions and stay out of the newspaper—and the courtroom.

The Bed Bug Symposium Marketplace is an added feature that gives you the opportunity to learn more about products and services available to you to prevent and beat a bed bug infestation.

Did you know bed bugs...

- Are predicted to be “the pest of the 21st century?”
- Can survive without a blood meal for a year?
- Hitch rides in luggage?
- Lay up to five eggs a day and 500 during a lifetime?
- Hide in mattresses, furniture, electrical outlets, floors, alarm clocks, any crevice of public transportation—and so many other places?

PROGRAM OF EVENTS

7:30 a.m. – 8:30 a.m.

Registration and Marketplace

8:30 a.m. – 8:45 a.m.
